ITEM 3.  Matters of Interest to Commissioners:

Chairman Britt addressed the Board and provided an update regarding a recent White House Briefing. The White House invited North Carolina County Commissioners to attend a meeting on Wednesday, March 14. The North Carolina Association of County Commissioners hosted a dinner the previous night. Mr. Britt stated that the meeting was very informative and, in his view, an advantageous opportunity to discuss issues directly with the federal government. He stated his appreciation for the opportunity to attend this briefing.

Chairman Britt recognized Commissioner Bullock to address the Board. Commissioner Bullock stated that he had been approached regarding the quality of the audio in the Commissioners’ Room. Information Technology Director Robin Hewett stated that a quote had been requested of Evans’ Computer Solutions for additional or updated audio equipment for the Commissioners’ Room.

ITEM 4.  Individuals/Delegations Wishing to Address Commissioners:

Chairman Britt recognized Mr. Dawson Singletary to address the Board regarding drainage issues in Bladenboro and the adjacent properties. Mr. Singletary provided history regarding the canal system in and around Bladenboro. He stated that since Hurricanes Fran, Floyd and Matthew that sediment and beaver dams have blocked the water flow in the Bryant Swamp basin. Mr. Singletary expressed frustration regarding the past use of grant funds to accomplish some water flow, but not to the point of completely allowing to flow out of Bladenboro and surrounding areas.

Chairman Britt thanked Mr. Singletary for his time and presentation.

Chairman Britt recognized Mr. Lawrence Pfohlman to address the Board. Mr. Pfohlman addressed a number of items with the Board, beginning with the removal of the picnic table area on Hwy. 701, just south of Elizabethtown. Mr. Pfohlman then addressed an ongoing issue with discolored water and sediment in water. He produced four (4) different containers of water, three from 2017 and one from March 2018, to show the Board a sample of water. Mr. Pfohlman stated that when he calls the Water District for assistance, they have been responsive in addressing his calls and concerns. He stated that when the water lines are flushed, the sediment seems to be worse and doesn’t seem to settle quickly.

County Manager Greg Martin agreed with Mr. Pfohlman that with a rural water system, there is not enough water usage to keep water “turned-over” which helps with a discoloration issue. He stated that the flushing of the lines may need to be addressed as a “trickle” flush instead of a high-pressure flush as to not disturb sediment which has settled in the water lines.

Chairman Britt asked Mr. Martin to address these issues with the Water District and keep Mr. Pfohlman informed. Mr. Martin also indicated that he would reach out to the NC Department of Transportation to check on the status of the picnic table.

Mr. Pfohlman also inquired if signage would be installed at the stop sign located at the intersection of NC 87 and US 701. Currently there is no sign indicating the direction of Elizabethtown and White Lake versus Clarkton and Whiteville on US 701.

The Board expressed its appreciation to Mr. Pfohlman for his time and sharing concerns.

The parcel was foreclosed by the County in 2017. Ms. Patricia Johnson Powell submitted a bid in the amount of $5,700 on March 13, 2018, a sibling to former owner. Ms. Powell requested a private sale per NCGS 105-376C and an extension of 90 (ninety) days to pay the amount in full. C. Mr. Martin provided an overview of a NC Commerce program, Opportunity Zones. Mr. Martin stated that a total of six (6) census tracks (Opportunity Zones) have been identified within Bladen County. The Opportunity Zones program offers three tax incentives for investing in low-income communities through a qualified Opportunity Fund. The Opportunity Zones program has been designed to incentivize capital investments in low-income communities. All of the underlying incentives relate to the tax treatment of capital gains, and all are tied to the longevity of an investor’s stake in a qualified Opportunity Fund, providing the most upside to those to hold their investment for ten (10) or more years.
